

Universal Free School Meals

From September 2014, there will be Government funding provided to enable schools to offer a free lunch to every infant age child (reception, year 1 and year 2)

Pilot projects have found that universal free school meals can have significant benefits both for individual children and for the broader life of the school.

Moss Hey fully supports the initiative and encourages families to take up the free lunch offer which will provide our pupils with a healthy and nutritious meal.

We are very pleased to be working with 'Dolce' to provide our school meals.

Further information about the school meal service that is available can be obtained from school, and for new parents this information will be made available on induction day.
